For Airway Success

Airway Interventions & Management in Emergencies

AIME CAEP Roadshow

A Hands-on, Case-based, Practical Airway Learning Experience

AIME CAEP Roadshow: This program is designed for physicians working in an acute care setting requiring them to competently manage patients in need of emergency airway management.

AIME educators are experienced (and entertaining) clinical instructors who understand the varied work environments of practicing clinicians. You will not be taught industry representatives. Whether you work in a large, high volume center or a small remote setting, AIME will provide a practical approach for airway management in emergencies.

Course Highlights:

- Case-based clinical decision making
- Practical airway algorithms
- When, why and how to perform awake or rapid sequence intubation
- Textbook/manual based on the AIME program
- Unique, customized clinical videos
- Limited registration to ensure clinician to instructor ratio of 5 or 6:1
- Clinician to simulator ratios of 2:1
- Reinforcement of core skills
- Introduction to newer alternative devices (video laryngoscopes & others)
- Exposure to rescue devices (King laryngeal tubes, LMA Supreme and others)
- Opportunity to practice performing an emergency surgical airway

AIME Training®

Program Objectives: Attendees will...

1. Be more confident and comfortable in making acute care airway management decisions.
2. Have acquired a practical staged approach to airway management.
3. Be able to choose the most appropriate method of airway management based on a variety of patient presentations.
4. Make appropriate choices in the use of pharmacologic agents used to facilitate airway management.
5. Know when and how to use various tools and adjuncts for managing the difficult airway.

Program Day:

0730-0800 Registration/Coffee

0800-0820 Introduction

0820-0900 *Workshop 1: Oxygenation techniques*

0900-0920 Indications for tracheal intubation

0920-0950 Functional airway anatomy/Airway assessment

0950-1000 Coffee

1000-1115 *Workshop 2: Laryngoscopy*

1115-1200 Airway decisions- Awake vs RSI

1200-1230 Lunch (provided on-site)

1230-1315 Approach to the difficult airway

1315-1445 *Workshop 3: Alternative intubation techniques/
Rescue oxygenation*

1445-1545 *Workshop 4: Case Discussions/Coffee*

1545-1730 *Workshop 5: Case scenarios- Putting it all together*

1730-1745 Wrap-up/Evaluation
